## AIRFORCE AIRGUNS

### Texan Carbine Air Rifle

**T**he AirForce Texan Carbine has all of the features of its big brother, the Texan, but with an overall length of just 29 inches. It maintains all of the accuracy AirForce Airguns are known for in a compact package that delivers a serious punch. The Texan Carbine is available in .50, .457, .357 and .308 calibers and weighs in at 7.5 pounds. Its 25-inch barrel is precision rifled, and with muzzle velocity of up to 930 fps and energy up to 400 foot-pounds, the carbine delivers with every shot. The rifle's shorter profile is designed for ease of movement in heavy brush and tight hunting blinds. Every other feature and function, including mounting rails and tank capacity, is the same as the Texan. AirForce is known for developing technologically advanced airgun shooting systems and is a favorite of black airgun enthusiasts. With a reputation for flexibility and legendary accuracy, AirForce Airguns offers a solution for just about any airgun shooting situation.

- Compact design for improved maneuverability
- Available in four hard-hitting calibers
- Complete shooting kits with optics available ♦

#### **Airforce Airguns:**

Established in 1998, AirForce Airguns was the first company to mass-produce high-quality PCP air rifles in the United

States. In 2018, it acquired RAW Airguns and continues to manufacture them in its original factory in Minor Hill, Tennessee.

# BOOTS

## ZAMBERLAN

### Hunter Pro EVO GTX RR Insulated Boot

The 1005 Hunter Pro EVO GTX RR insulated boot is ideal for late-season, big-game hunting where warmth, comfort, durability and traction are of utmost importance. Late-season hunting requires boots that perform well in both rocky and icy terrain, and also provide versatility and comfort during extreme temperature swings — waterproof boots that keep feet warm and dry. The Hunter Pro EVO features Gore-Tex Insulated Comfort membranes, which offer about a 400- to 500-gram equivalent in other insulations, providing better breathability in all temperatures with less bulk. Another Hunter Pro EVO enhancement is the 360-degree rubber rand system designed to better handle rocky, snowy and icy surfaces. Exclusive Zamberlan Vibram Darwin outsoles are built wider for greater comfort and enhanced grip on slippery surfaces. Full grain waxed leather uppers are sourced from only the best premium Italian tanneries and are infused with Hydrobloc water-based conditioner during the tanning process.

- Perform well in extreme conditions
- Gore-Tex Insulated Comfort membranes
- Wide outsoles for greater comfort and enhanced grip

**Zamberlan:** Italian bootmakers since 1929, Zamberlan has achieved countless product awards and is recognized world-

wide for its quality, comfort, fit, performance and striking designs.

# BOOTS

## THOROGOOD

### Infinity FD Neoprene Boots

**T**horogood has added a new waterproof, non-insulated neoprene boot to its Infinity FD series — a fusion of simplicity and complexity that combines its proprietary Infinity FD compounds. Underneath and inside of this classic rubber boot silhouette is cutting edge technology that bolsters performance and enhances comfort in the most challenging conditions, featuring high rebound energy return that provides infinite performance for limitless outdoor pursuits. Patent pending Flex-Drive technology provides stability in the heel and flexibility in the forefoot, which makes these boots more comfortable while maintaining durability. Wearers will enjoy excellent shock absorption for added comfort and fatigue-fighting energy return that keeps them moving forward, no matter the terrain.

Infinity FD neoprene boots feature a reinforced rubber bottom with a multi-traction, self-cleaning midsole/outsole and an anti-microbial wicking liner keeps feet dry and comfortable.

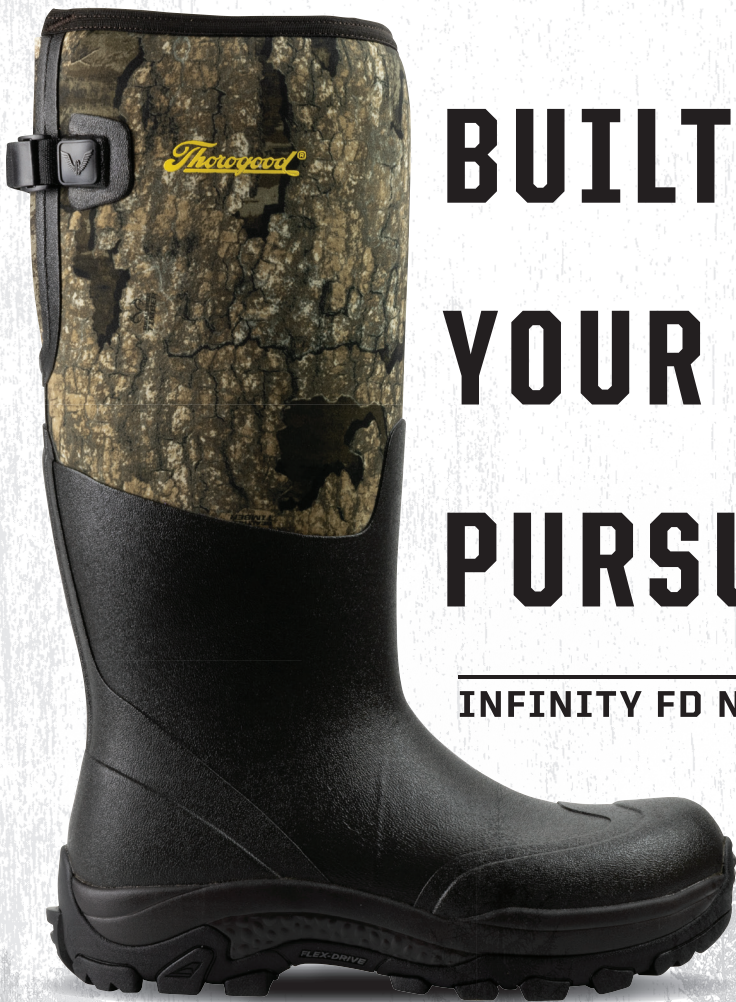

- Adjustable calf gusset
- Composite shank
- Available in Realtree Timber

**Thorogood:** Thorogood is an employee-owned Wisconsin company that takes pride in creating quality crafted products its customers — rough, tough, classic hard-working people — can rely on to get the job done.

# CASES

## RUGID

Waterproof, Floatable Gun Cases

**A**s all hunters know, expensive firearms and water are not compatible, but there's a solution when transporting them by watercraft or when hunting in inclement weather. RUGID offers a comprehensive line of cases for all styles of firearms — from handguns to rifles, shotguns and ARs — with features not found in similar product lines. Constructed with oversized durable 500 Denier PVC waterproof shells, RUGID cases guard against extreme weather elements such as rain, snow and dust to provide exceptional protection when hunting or traveling in adverse conditions. RUGID cases float when fully loaded, can be hosed clean and feature ATV/UTV attachment straps and a removable foam interior. Low minimum orders and favorable

terms make RUGID a profitable choice for both large and small retailers.

- Float while fully loaded
- 500 Denier PVC 100 percent waterproof exterior
- Two-year, no hassle warranty against defect ♦

**RUGID** RUGID: A company that hails from northern Wisconsin, RUGID has a full line of high-test gear for backcountry outdoorsmen/hunters that includes a wide assortment of gun and bow cases, coolers, duffel bags and more. [www.rugidgear.com](http://www.rugidgear.com) / (833) 777-8443

## ALEON

### Premium Custom Gun/Equipment Cases

**A**LEON is a fully integrated manufacturer of superior-quality cases for outdoor enthusiasts. ALEON produces cases made from traditional ABS and polypropylene and specializes in state-of-the-art aircraft grade aluminum alloy cases that can be custom designed to its clients' specifications with low minimums. ALEON also produces interior divided inserts, pre-cut foam inserts and custom foam inserts, so there is no need to have one source for case needs and another source for the interior protective inserts — and no need to assemble them in-house hoping they will fit properly. With ALEON, clients can install their product and move forward. ALEON makes the process a one stop seamless transaction: Customers outline their needs, provide samples and/or specifications and ALEON does the rest, providing multiple options so they can select

the best fit for their needs. In a matter of weeks, the complete case is ready for installation of the product. For the reseller, ALEON offers more options on price, fabrication, and ordering options for their case needs.

- Multiple options
- One-stop seamless transaction
- Custom case design options

**ALEON** TIMELESS BY DESIGN. BUILT TO LAST. **ALEON:** ALEON's state-of-the-art factory has over 30-years' experience fabricating Aluminum and molding ABS and Polypropylene—every case is designed and manufactured with functionality, durability, security, and style in mind.

# CASES

## SKB

### iSeries Gear Cases

**W**ith more than 60 standard sizes — featuring both standard and custom foam interiors to accommodate firearms, bows, optics, ammo and other essential gear — SKB iSeries cases are built and independently tested to meet or exceed U.S. military specifications for waterproofness, pressure equalization and resistance to UV, solvents, corrosion, fungus and impact damage. These cases are injection molded using a proprietary blend of virgin (non-recycled) plastic to be lighter and two times stronger than similar cases built by competitors. Other standard features include field-replaceable hardware, durable molded-in hinges, patented easy-open trigger release latches, rubber over-molded handles, reinforced padlock loops and a variety of interior /

exterior options to transport and protect pretty much anything. All iSeries cases are proudly made in Orange, California, and come standard with an unconditional lifetime guarantee.

- Waterproof
- Lightweight and durable
- Field-replaceable hardware 

**SKB:** The SKB Cases Sports Division is a globally recognized industry leader in the design and manufacture of

molded polymer protective cases for a wide variety of outdoor gear, including gun and bow cases.

# GAME CAMERAS

## MOULTRIE MOBILE

### Delta Cellular Trail Camera

**R**eceive trail camera images on smartphones, computers and tablets with Moultrie Mobile. Monitoring remote properties for trophy bucks, bears, boss gobblers and trespassers has never been easier or more affordable than with the new Moultrie Mobile Delta cellular trail camera — loaded with advanced features for premium performance in the field and workhorse reliability all season long. The camera's 32MP Illumi-Night 3 Sensor delivers images and video with vivid colors by day and crisp, bright clarity at night with invisible infrared flash. The Delta further separates itself from other game cameras with up to 50 percent improved battery life than previous models. With longer battery life, the Delta will keep users connected longer without a trip to the field. The camera is also equipped with onboard GPS for theft deterrence and easy device location on the Moultrie Mobile app map.

- Onboard GPS
- Industry-first High Dynamic Range (HDR) imaging
- Up to 12 months of use on a single set of lithium batteries ♦

**MOULTRIE**  
**MOBILE™**

#### **Moultrie Mobile:**

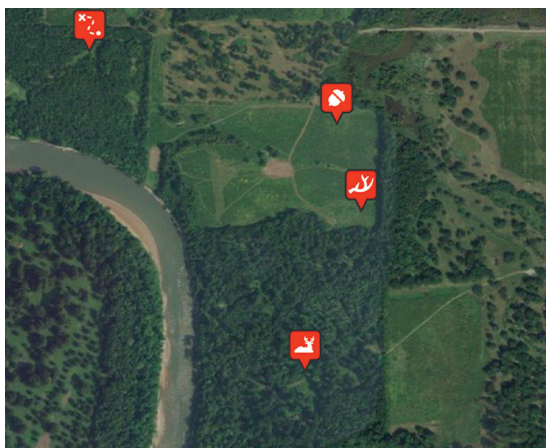

Headquartered in Birmingham, Alabama, Moultrie Mobile is a rapidly scaling software and connected hardware platform used by hunters, property owners and others for real-time remote monitoring.

# GUN CLEANING & MAINTENANCE

## BALLISTOL

The Original CLP

Originally developed in 1904 for the German army and battle-proven for more than 110 years, Ballistol lubricates, penetrates, cleans, protects and preserves materials ranging from wood and leather to metal and plastics. It contains no carcinogens and removes all bore fouling and carbon residue while being completely skin-safe and biodegradable. As a lubricant, Ballistol will never gum up, harden or freeze and is safe on all gun stocks including wood and camo-dipped synthetic models. It seals and protects rubber and leather from drying and cracking and being slightly alkaline it protects against all types of corrosion, including galvanic, acidic and salt-water. When emulsified with water, Ballistol instantly neutralizes black-powder and corrosive ammo residue on contact.

Available in several sizes of aerosol and non-aerosol containers, as well as individually wrapped wipes, even as little as 5 percent Ballistol in water will prevent rust.

- Contains no carcinogens
- Will not gum up, harden or freeze
- Neutralizes blackpowder and corrosive residue

**Ballistol:** For more than a hundred years, consumers have trusted Ballistol products to lubricate, penetrate, clean, protect and preserve their firearms, leather gear, wood, metal surfaces and more.  
[www.ballistol.com](http://www.ballistol.com) / (800) 253-2460

# GUN CLEANING & MAINTENANCE

## IOSSO

### Case Polish Tumbler Media Additive

Ioosso Case Polish works with a tumbling media to reduce tumbling time and give brass casings a like-new finish. Available in a variety of sizes for home and commercial reloaders, it cleans and polishes brass casings to a high luster by removing powder fouling, residue, oxidation, tarnish and discoloration. Simply add to the media before tumbling. Ioosso Case Polish is environmentally and user friendly, and its USDA certified bio-based formula has no odor — so it's great for users who have allergies. Use Ioosso Case Polish on soiled casings or on casings that have been pre-cleaned with Ioosso Case Cleaner. This unique cleaner also protects casings from tarnishing once

they are cleaned. It is available in 8-ounce and 1 quart cans and larger sizes up to 55 gallons.

- Cleans and polishes brass casings to a high luster
- Works with media to reduce tumbling time
- Environmentally safe ♦

**IOSSO**<sup>®</sup> **ioosso:** Ioosso has been manufacturing innovative environmentally responsible cleaning products for over 30 years in the marine, shooting sports, RV and industrial markets.

# GUN CLEANING & MAINTENANCE

## PROLIX

Penetrating Solvent/Dry Lube

**F**ield tested by law enforcement, military and commercial shooters, PrOlix is a lab-developed penetrating solvent/dry lube gun-care product. The citrus-based biodegradable cleaner, pioneered in 1995, is the first successful “all in one” gun care product, made from 89 percent or greater renewable resources, a true commitment to sustainable practices and environmental awareness — listed as a BioPreferred product by the USDA since 2012. The solvent goes on wet, cleans and bonds, and the lube turns dry to the touch. It removes carbon, copper, lead, shotgun plastic residues and blackpowder. PrOlix will not damage wood, freeze or flash off, and it can be used for commercial and industrial applications. To complement the PrOlix Cleaner/Lubricant (Dry Tech) line, shooters can use the equally effective gun oil and grease replacer PrOlix Xtra-T Lube for a complete gun care process. PrOlix is now shipping its products with a new look, and its PrOlix TGCP in the 16-ounce-PRO with an adjustable nozzle and trigger-sprayer cap is now available in an easier-to-handle bottle.

- Goes on wet, dries to touch
- All-in-one gun care product
- Citrus-based/biodegradable ♦

**PrOlix:** PrOlix products were ultimately introduced in 1980 at the Los Angeles Law Enforcement Expo and to retail communities in 1986.

[www.prolixlubricant.com](http://www.prolixlubricant.com)  
**(800) 248-5823**

# GUN CARE

## All In One Step

*No product on the market works like Prolix and we've guaranteed it for 34 Years!*

### DRY LUBRICANT

- Improves accuracy
- Prevents jamming
- Won't flash off
- Will not freeze
- Non-hazardous
- Reduces fouling
- Won't harm wood, primers, old guns, or stain clothing!
- Bio preferred by USDA
- Non-petroleum

**Goes on wet, cleans, bonds, turns DRY!**

## AMERICAN TACTICAL

### FXH-45 Moxie Single-Action Pistol

**T**he FXH-45 Moxie 1911 single-action semi-automatic pistol sports an improved look and feel with an all-new barrel, slide and sight set. This is a full-size patented hybrid 1911 that has a polymer frame with two metal inserts for added stability and durability. The Moxie also features a 4140 steel slide with a sleek parkerized finish, and the frame was built to have an ergonomic feel with built-in finger grooves. This new breed of 1911 is compatible with most standard 1911 parts and grips, made in similar fashion as ATY's other hybrid pistols. The Moxie accepts Glock front and rear sights, including aftermarket night sights, and a removable top plate allows for the addition of an optics mount.

The pistol measures 5.4 inches in height and 8.7 inches in length and weighs 1.95 pounds empty with no magazine.

- .45 ACP caliber
- Black polymer grips
- One eight-round magazine included

AMERICAN TACTICAL

#### **American Tactical:**

American Tactical is a firearms manufacturer and importer based out of Summerville, South Carolina – distributing

a wide array of guns at competitive prices while still manufacturing them in the USA.

## TAYLOR'S FIREARMS

### 1858 Ace Snubnose Revolver

**A** unique perspective of an 1858 New Army revolver, the new-for-2021 Ace from Taylor's Firearms features a 3-inch octagon barrel, making it a snubnose version — a comfortable weight and size for carrying. The Ace comes chambered in blackpowder .44-caliber and conversion cylinders are available to shoot modern smokeless .45 LC ammunition. It is available with three two-piece grip options: checkered walnut, smooth walnut and white PVC. A brass trigger guard maintains historical accuracy for this handy-size revolver. With a vast selection of finishes, custom grips and caliber configurations available, each Taylor's firearm is inspected by skilled in-house gunsmiths located in Winchester, Virginia.

- Accepts .45 LC conversion cylinders
- Lightweight and compact
- Three grip options available ♦

**Taylor's Firearms:** Founded in 1988, Taylor's Firearms imports and markets

historically correct reproduction firearms, parts and accessories. For those serious collectors, competitors, sporting or hunting enthusiasts, Taylor's Firearms is committed to *Keeping the Legend Alive* for those living the modern Western lifestyle.

## MAGLITE

### ML 150LR(X) Rechargeable LED Flashlight

Environment	1 GENERAL	2 OUTDOOR	3 LAW ENFORCEMENT	4 TACTICAL
Full Power	Full Power	Momentary	Momentary	
Low Power	Low Power	Full Power	Full Power	
Eco	Strobe	Eco	Strobe	

What's the point of having a rechargeable flashlight if it takes forever to charge? No worries. The ML 150LR(X) LED flashlight by Maglite will recharge to 80 percent capacity in just a half-hour. And it's powerful — producing 1082 lumens of light while running at that level for more than three hours. The beam throw is an incredible 500 yards, and in eco-mode the ML 150LR(X) will provide 79 nonstop hours of usable light. Users can thank Maglite's patented LED Heat-Sink technology for that kind of all-star performance. The ML 150LR(X) weighs less than 1 pound and it's been given a five-star rating by the National Tactical Officers Association during field tests and was raved about in an editorial review by [www.officer.com](http://www.officer.com). Sporting an iconic design, this flashlight is perfect for at home, at work or at play.

- Cradle securely clamps light even in rough conditions
- QuickFocus™ — Spot to Flood in about 1/4 turn of the head
- Customizable for quickest access to each user's preferred modes
- Lifetime Tough, anodized aluminum body

**Maglite:** Maglite strives to offer

its consumers the most well-balanced quality lighting instruments in the marketplace. And it's that superb product quality that has helped it to remain a trusted brand over the past four decades.

## HAWKE OPTICS

### Sidewinder Riflescope

**F**or more than a decade, the Sidewinder riflescope from Hawke has been the very definition of performance and reliability. Created with almost every conceivable option, it is seen as a multi-discipline optic with a wide range of uses. The result: It's the optics company's most popular riflescope ever — precision designed for extreme clarity and light transmission and built for optimum functionality and durability. Lightweight in design, it offers superior strength and resistance to corrosion. Available in first and second focal plane optical systems, the Sidewinder features laser etched glass reticles that deliver precise and detailed aiming points for holdover, ranging and windage corrections. Its custom designed illumination system delivers six levels

of brightness for optimal reticle visibility in any hunting or shooting situation.

- Ultra-wide field of view
- Generous eye relief
- Locking elevation turrets with witness window

**HAWKE**

#### **Hawke Optics:**

From humble beginnings in its founder's garage over

40 years ago, Hawke has become a world leader in sport optics. Headquartered in the United Kingdom with a presence in over 60 countries and expanding to the United States in 2007, it is still a family-run business today.

# MEET THE NEW BOSS!

SIDEWINDER SYSTEM H5

Redesigned from the ground up, with our H5 Optics, the all new Sidewinder is a huge upgrade on the outgoing model. Lighter, stronger, 4 inch eye relief, better crown glass, improved illumination and a new locking turret system with witness window.

These are just some of the reasons to upgrade.

VISION  
ACCOMPLISHED

### Thor 4 Thermal Riflescope

**T**he Thor 4 is ATN's flagship thermal riflescope for hunting, touting new cutting edge 4th Gen thermal sensors for better performance and range in dynamic conditions — providing the user with incredible detection range and sharp, clear images. Ergonomically designed and packed with a full suite of rich features, the Thor 4 can be mounted to any firearm platform using 30mm rings and uses an industry leading power management system that provides up to 16 hours of continuous use in the field. Its advanced Ballistic Calculator keeps the user on target for clean, ethical hunting. A profile manager allows users to swap between six firearms while retaining zero, and with One Shot Zero, sighting-in has never been easier — simply take

a shot, adjust the reticle and the Thor 4 is ready to go hunting.

- User-friendly features
- Recoil resistant
- 16 hours of continuous battery power ❖

**THE FUTURE  
OF OPTICS**

**ATN:** Founded in 1995, ATN is the market-leading manufacturer

and developer of 4K resolution digital smart optics for day and night operation and smart thermal imaging optics for night operations. Its optics are the perfect choice for hunters, outdoor enthusiasts and military and law enforcement personnel.

### Thor LT Thermal Riflescope

**T**he Thor LT, a powerful yet compact thermal riflescope, is an amazing addition to the already proven ATN line of thermal and night vision optics —stripped of the “bells and whistles” to make it more simple and easier to use. It is everything ATN’s customers have asked for — a close-range scope that provides outstanding performance at a price that is affordable to the average hunter. The Thor LT is available in various sensor and optics configurations, provides 10 hours of continuous use from its internal battery and features ATN’s One-Shot Zero feature. And just like the Thor 4, it is recoil rated up to .416 Rem. and will mount to any standard rail that accommodates 30mm rings. Now, hunters can elevate their game with quality and affordability.

- One-Shot Zero feature
- Lightweight and compact
- 10 hours of continuous battery life ♦

## WHITE HORSE RESEARCH & DEVELOPMENT

Boss Box Weapons Clearing Systems

**B**oss Box Weapons Clearing Systems from White Horse R&D are setting the standard for gun safety related to the downloading and clearing of a wide variety of firearms. Designed to withstand bullet impacts from a wide variety of weapons, there are four different self-healing ballistic applications that range from handgun rounds up to military grade .50-caliber armor-piercing rounds. For convenient placement, the Boss Box can be mounted on a table or wall, configured to be stationary or mobile with locking wheel casters. The systems utilize a technologically advanced design with self-healing materials for the highest level of safety applications for law enforcement, military, armories, commercial ranges, institutional and government buildings, gunsmiths and civilian gun enthusiasts. Statistics for accidental

and negligent discharge are always a reminder of how important promoting prevention measures are.

- Military grade/ multi-level weapons clearing systems
- Top ballistic unit exceeds UL 752 Level 10
- Sturdy construction with an approximate weight of 28 pounds ♦

### White Horse R&D:

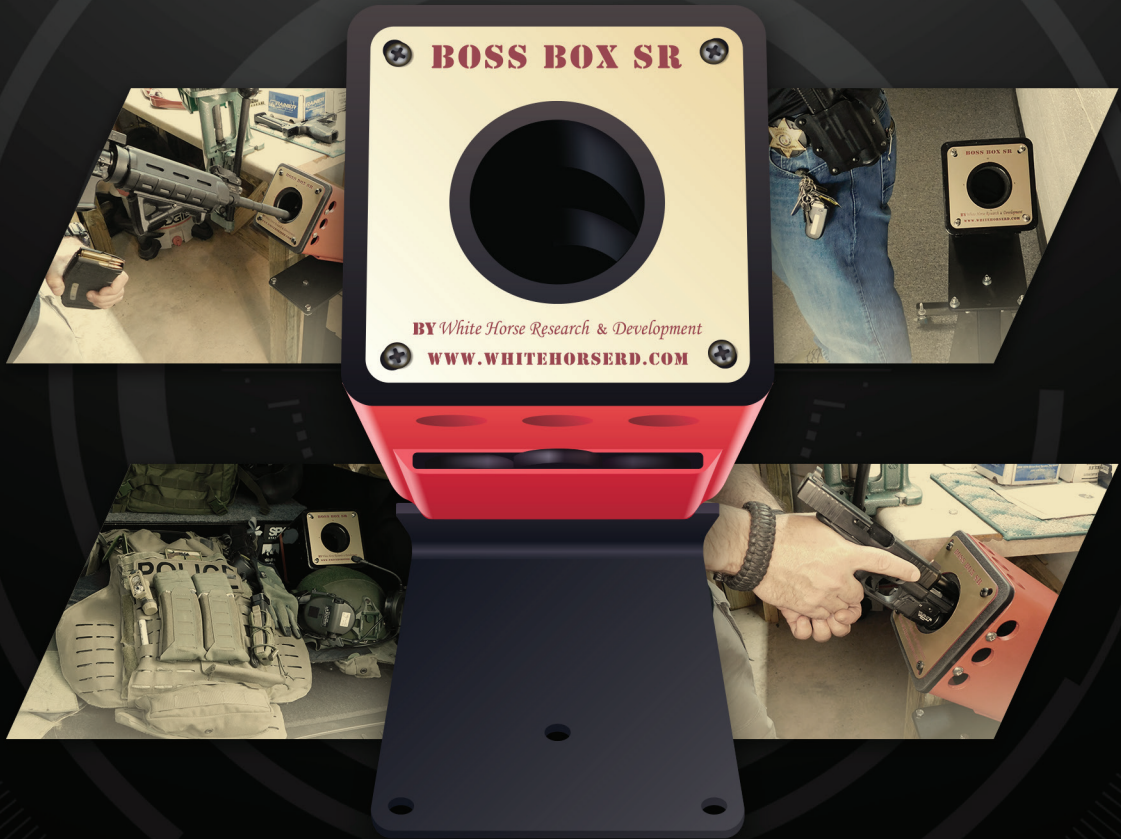

White Horse is an innovative composite armoring applications solutions provider utilizing cutting-edge technologies in the production of cost affordable,

turnkey, ballistic and blast mitigation solutions.

# RIFLE BARRELS

## GREEN MOUNTAIN

Rifle Barrels

Since 1976, Green Mountain Rifle Barrel Company (GMRB) has offered top-quality rifle barrels and excellent pricing to dealers and individual customers alike. Its barrels are available fully machined, finished and ready to assemble or as rifled “blanks” for custom projects. From raw bars GMRB cuts, deep-hole drills, finish reams to a precise, uniform size and button rifles its barrels and then CNC lathes them to create a variety of contour styles for the popular AR, AK, Uzi, Ruger 10/22 platforms and more — only after thermo-stress relieving ensures consistent bore dimensions. Whether customers choose a rifled blank or finished product, GMRB-quality of every barrel is assured at each production process. Rifled bore dimensions are measured with air-gage accuracy. Finished features, created in computer controlled milling centers, are examined by skilled inspectors with a range of

instruments from the conventional (.0001 inch) micrometer to up-to-date (and versatile) electronic equipment. Ready-to-assemble barrels are available with professional phosphate, nitro-carburized or blued coatings, with or without a chrome-lined bore.

- Rust preventative coating
- Individually wrapped to ensure safe delivery
- GMRB quality assured

**Green Mountain:** Branch Meanley founded Green Mountain Rifle Barrel Company in 1976 with machinery he

custom made or modified to turn his vision of making the perfect barrel into reality. Today, Green Mountain crafts every barrel with that same passion, pride and attention to detail.

**603-447-1095 Mon.-Fri. 8am-5pm**

Since 1976 Green Mountain Rifle Barrel Company has provided hunters, competitive shooters, craftsmen and shooting enthusiasts alike the same great quality rifle barrels, made with pride and attention to detail.

With a reputation for accuracy built on a history of setting records in national shooting competitions, GMRB makes no short cuts or compromises, only the dedication to give a product that will out-perform the customer's highest expectations.

Visit our website at [www.gmriflebarrel.com](http://www.gmriflebarrel.com) or even our

brick-and-mortar retail store at 153 West Main Street, Conway, New Hampshire to see all the AR15, AK, 10-22, UZI barrels, raw and turned barrel blanks, specialty barrels, and more.

# RIFLE STOCKS

## BELL AND CARLSON

### M77 MKII/Hawkeye Sporter Stock

**S**hooters can now upgrade their Ruger M77 rifles with a high-quality Bell & Carlson replacement stock, designed as a “drop-in” fit for Ruger M77 MKII and Hawkeye long-action right-hand rifles. (Note: Spot bedding at the recoil lug to align the barrel in the channel might be required.) Its computer-designed and CNC-machined full-length 6061-T6 aluminum bedding system extends through the forearm for strength and stiffness and an additional aluminum “tail piece” extends from the bedding block through the grip area for even more rigidity. The 31-inch stock weighs approximately 2 pounds, comes with a 13.625-inch length of pull and 1.7-inch forearm width at mid-point. It also features a free-float magnum channel as well as a 1-inch Pachmayr Decelerator recoil pad and front and rear sling studs.

- Free-float magnum barrel channel
- Monte Carlo profile
- Lightweight design ♦

**Bell and Carlson:** Bell and Carlson is a leader in synthetic stock design and technology—and manufacturer of the highest-quality fiberglass, aramid and graphite gun stocks available.

[www.bellandcarlson.com](http://www.bellandcarlson.com) / (620) 225-6688

**NEW  
PRODUCT!**

# RUGER M77 MKII & HAWKEYE SPORTER STOCK

SKU 1055

- Long Action, Right Hand
- Free Float Magnum Barrel Channel
- Designed as a drop in however may require spot bedding at recoil lug to align barrel in channel. This is due to the nature of the Ruger M77 MKII having a broad range of tolerance at the recoil lug area.
- Computer designed and CNC machined full length 6061-T6 aluminum bedding system extends through forearm for strength and stiffness. An additional aluminum "tall piece" extends from the bedding block through the grip area for even more strength and rigidity.
- 1-inch Pachmayr Decelerator recoil pad
- 1 front sling stud and 1 rear sling stud
- 13.625" Length of pull \*1.7" forearm width at mid point
- 31-inch overall stock length
- Approximately 2.0 pounds.
- Barrel Channel Specs: Just forward receiver is 1.275" & 9" forward of receiver is .915"
- 24" barrel with actual muzzle diameter of .625

## CORESTORE AND COREFORCE

coreSTORE/coreFORCE Point of Sale and eCommerce Solutions

The top retailers and distributors in the industry choose Coreware as their solutions provider. Operating a shooting sports business requires a solid point of sale and inventory management system, with complete bound book and E4473 functionality and an integrated eCommerce solution, coupled with transparent and affordable merchant processing. Having a fanatical support team available during the customer's business hours — and ideally, a single point of contact rather than multiple providers pointing fingers at one another doesn't hurt, either. This is where Coreware's Firearms Suite of Solutions comes in. coreSTORE is a point of sale solution that includes everything needed to run a gun store/shooting range with 24/7 support, unlimited training, and no binding contracts. coreFORCE is Coreware's enterprise-ready

eCommerce, membership and class management, waiver, and range reservation solution that integrates into 14 of the nation's largest distributors. Unify and simplify with Coreware.

- Decades of experience
- Transparent pricing with no hidden fees
- No contracts and no outrageous upfront fees

**Coreware:** Coreware is the leading point of sale, ecommerce and

merchant processing solution provider for the shooting industry, offering a full suite of services for gun stores, shooting ranges, distributors and manufacturers.

# TARGETS AND ACCESSORIES

## THOMPSON TARGET

#5700 Paper Target Display

**T**hompson Target prints its designs on quality, heavy paper using ultra bright custom inks at high density, giving its customers an unparalleled shooting experience. The #5700 target display rack comes loaded with the company's top 12 proven paper target designs in the 12.5x19-inch configuration. It includes 10 units of each design and each unit consists of 10 targets in an ultra-clear poly pack. The #5700 metal display is sturdy and free standing with a cascading design that allows customers to easily browse and make their selection. Displays also include a full color target menu header panel that easily mounts to the top of the display. Thompson Target understands that every square foot of a store's retail space is valuable. With this in mind,

it created the #5700 display to house 12 SKUs in less than 2 square feet of floor space. Dimensions: 14x19x48 inches.

- Browse friendly
- Sturdy, free-standing construction
- Displays 12 proven paper target designs

## RISE ARMAMENT

### Blitz Single-Stage AR Trigger

**P**recision machined with handcrafted fine tuning, Rise Armament's Blitz single-stage drop-in AR trigger packs top-of-the-line performance for under \$200. It boasts incredible speed, performance and reliability for AR platforms ranging from PCCs to AR-15s and AR-10s. It has an ultra-fast Quik-Klik reset that can be felt and heard for rapid follow-up shots, has virtually no creep and breaks crisp like an icicle.

Interior parts are S7 tool steel with heavy-hit hardening and then black nitride finished for enhanced strength and corrosion resistance. Incredibly easy to install, the Blitz trigger also includes free anti-walk pins, and like all Rise products, it is backed by a lifetime warranty and performance guarantee. Fits AR-style platforms built to Mil-Spec dimension — calibers include .223 Rem./5.56mm, .308 Win., 6.5 Creedmoor, 9mm and more, making it an excellent option for PCCs.

- Single-stage 3- to 3.5-pound pull
- Precision machined with handcrafted fine tuning
- Simple, fast installation with no set screws to tighten ♦

**Rise Armament:** At Rise Armament, American values run deep. They are machinists, engineers, executives. Hog hunters, target shooters, coyote killers. Some are veterans. All are patriots

to the core, providing Tier 1 products to their fellow countrymen.

# TRIGGERS & SHOOTING ACCESSORIES

## ARACHNIGRIP

Semi-Auto Slide Grip

**T**he Slide Spider, by ArachniGRIP, is a patented one piece adhesive grip wrap for semi-auto pistol slides, designed to enhance safety and control in the operation of handguns. It enables the shooter to gain increased control through a safe and secure hold. The Slide Spider features additional tactical advantages under challenging operating conditions, including extreme moisture and temperatures. In addition, the product aids shooters with weak or weakened hand strength and those with medical conditions such as arthritis. The grip is easy to install and extremely durable. ArachniGRIP offers a variety of designs to fit most semi-automatic handguns. The Slide Spider measures approximately 1 inch

by 3 inches, and custom imprinting is also available. They are 100 percent made in the USA. New dealers wanted.

- Defeats heavy slide springs
- Easy to install and extremely durable
- Effective in extreme weather conditions

**ArachniGRIP**

**ArachniGRIP:** Founded by two lifelong firearms enthusiasts, ArachniGRIP is located in Parker, Colorado,

producing products and instructional videos designed to aid shooters in the safe, practical use and control of their firearms.
