## AIRFORCE AIRGUNS

### Texan Carbine Air Rifle

The AirForce Texan Carbine has all the features of its big brother, the Texan, but with an overall length of just 29 inches. It maintains all the accuracy AirForce Airguns are known for in a compact package that delivers a serious punch. The Texan Carbine is available in .50, .457, .357 and .308 calibers and weighs in at 7.5 pounds. Its 25-inch barrel is precision rifled, and with a muzzle velocity of up to 930 fps and energy up to 400 foot-pounds, the carbine delivers with every shot. The rifle's shorter profile is designed for ease of movement in heavy brush and tight hunting blinds. Every other feature and function, including mounting rails and tank capacity, is the same as the Texan. AirForce is known for developing technologically advanced airgun shooting systems and is a favorite of black airgun enthusiasts. With a reputation for flexibility and legendary accuracy, AirForce Airguns offers a solution for just about any airgun shooting situation.

- **Compact design for improved maneuverability**
- **Available in four hard-hitting calibers**
- **Complete shooting kits with optics available** 

Established in 1998, **Airforce Airguns** was the first company to mass produce high-quality PCP air rifles in the United States.

In 2018, it acquired RAW Airguns and continues to manufacture them in its original factory in Minor Hill, Tennessee.

# BOOTS

## THOROGOOD

### Infinity FD Neoprene Boots

Thorogood has added a new waterproof, non-insulated neoprene boot to its Infinity FD series — a fusion of simplicity and complexity that combines its proprietary Infinity FD compounds. Underneath and inside of this classic rubber boot silhouette is cutting edge technology that bolsters performance and enhances comfort in the most challenging conditions, featuring high rebound energy return that provides infinite performance for limitless outdoor pursuits. Patent pending Flex-Drive technology provides stability in the heel and flexibility in the forefoot, which makes these boots more comfortable while maintaining durability. Wearers will enjoy excellent shock absorption for added comfort and fatigue-fighting energy return that keeps them moving forward, no matter the terrain. Infinity FD neoprene boots feature a reinforced rubber bottom with a multi-traction, self-cleaning mid-sole/outsole and an anti-microbial wicking liner keeps feet dry and comfortable.

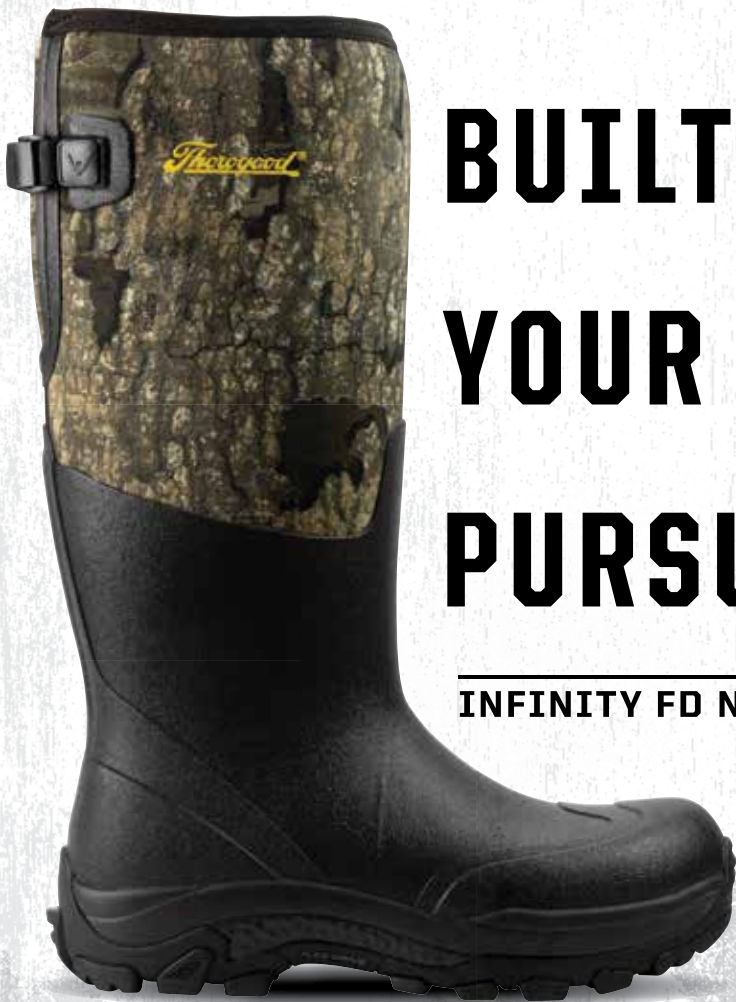

- Adjustable calf gusset
- Composite shank
- Available in Realtree Timber

**Thorogood** is an employee-owned Wisconsin company that takes pride in creating quality crafted products its customers

— rough, tough, classic hard-working people — can rely on to get the job done.

# GUN CASES

## BONE-DRI

### Moisture-Absorbing 2.0 Handgun Case

BONE-DRI, inventor of award-winning moisture-absorbing gun cases, is proud to announce the introduction of the BONE-DRI 2.0 Handgun Case. Engineered using Absorbites moisture-wicking technology, it protects handguns from corrosion and rust after they've been exposed to moisture and keeps them dry and ready for use. Crafted from heavy-duty industrial 800D PVC nylon with lockable mil-spec zipper sliders, this case stops rust before it starts and makes cleaning easier because it seeps out moisture from firearms' inner workings. It holds two handguns up to .45-caliber, five magazines and a tool kit, and works in conjunction with gun oil to keep handguns clean, dry and lubricated. Weighing just 1.69 pounds, the 2.0 Handgun Case measures 16 x 10 x 1.8 inches and is backed by a lifetime war-

ranty. BONE-DRI's current product line includes its Dual Rifle Case, Big Shuug Shotgun Sleeve, Shotgun & Rifle Case, Handgun 2.0 Case, Gun & Ammo Bag, Range & Tool Bag and Small Electronics Rescue Pouch.

- MOLLE compatible
- Holds two handguns and five mags
- Doubles as a utility and storage case

**BONE-DRI™ BONE-DRI** products are constructed with the best materials that can be sourced globally and are guaranteed for life. As a give-back company, BONE-DRI donates a portion of its profits to organizations that support conservation, children and disabled veterans.

[www.bone-dri.com](http://www.bone-dri.com) / (800) 621-1828

ENGINEERED WITH **ABSORBITS™** MOISTURE-REMOVAL MATERIAL

# STOP RUST BEFORE IT STARTS

Humidity and moisture can affect the performance of your gun, cause rust, and make cleaning difficult. Unlike any other gun cases, BONE-DRI cases are engineered with Absorbites™ moisture-removal material to store and protect your firearms from rust after exposure to moisture. Tested, proven, and guaranteed for life, BONE-DRI cases suck moisture...other cases just suck.

## RGD

WATERPROOF, FLOATABLE GUN CASES

As all hunters know, expensive firearms and water are not compatible, but there's a solution when transporting them by watercraft or when hunting in inclement weather. RGD offers a comprehensive line of cases for all styles of firearms — from handguns to rifles, shotguns and ARs — with features not found in similar product lines. Constructed with oversized durable 500 Denier PVC waterproof shells, RGD cases guard against extreme weather elements such as rain, snow and dust to provide exceptional protection when hunting or traveling in adverse conditions. RGD cases float when fully loaded, can be hosed clean and feature ATV/UTV attachment straps and a removable foam interior. Low minimum orders

and favorable terms make RGD a profitable choice for both large and small retailers.

- **Float while fully loaded**
- **500 Denier PVC 100 percent waterproof exterior**
- **Two-year, no hassle warranty against defect** ♦

A company that hails from northern Wisconsin, **RGD** has a full line of high-test gear for backcountry outdoorsmen/hunters that includes a wide assortment of gun and bow cases, coolers, duffel bags and more. [www.rugidgear.com](http://www.rugidgear.com) / (833) 777-8443

# GAME CALLS

## FOXPRO

### Hi-Jack Electronic Game Caller

The Foxpro Hi-Jack is a completely re-engineered unit made for big volume in a small package. This lightweight powerhouse electronic game caller, which includes a decoy, also comes with the most sought-after remote-control unit on the market, the TX-1000. It comes standard with 100 high-quality Foxpro sounds plus the Foxpro Free Sound Library (100 plus sounds) and can hold up to 1,000 sounds. The TX-1000 features a full color graphic LCD screen, which displays the sound list or sound categories. It also has auto-volume, wireless upload to the remote, a battery level indicator, timer or time clock and Foxcast and Foxbang technology. Enhance the realism by using the included Hi-Jack decoy and Fuzzy Wuzzy topper, mounted to the back of the unit. The Hi-Jack comes with a lithium battery and

charger kit in the box. It is backed by a 5-year limited warranty and Foxpro's unmatched customer support and is proudly made in the USA.

- Comes with a decoy
- Holds up to 1,000 sounds
- Remote features a full color graphic LCD screen

---

**FOXPRO** <sup>®</sup> Manufacturer and distributor of high-performance electronic game callers, hand calls, decoys and other hunting gear, **FOXPRO** grew from a single-man operation to a more than 70-person operation from 1993 to 2015, with its products sold worldwide.

# GUN CLEANING & MAINTENANCE

## BALLISTOL

The Original CLP

Originally developed in 1904 for the German army and battle-proven for more than 110 years, Ballistol lubricates, penetrates, cleans, protects and preserves materials ranging from wood and leather to metal and plastics. It contains no carcinogens and removes all bore fouling and carbon residue while being completely skin-safe and biodegradable. As a lubricant, Ballistol will never gum up, harden or freeze and is safe on all gun stocks including wood and camo-dipped synthetic models. It seals and protects rubber and leather from drying and cracking and being slightly alkaline it protects against all types of corrosion, including galvanic, acidic and salt-water. When emulsified with water, Ballistol instantly neutralizes blackpowder and corrosive ammo residue

on contact. Available in several sizes of aerosol and nonaerosol containers, as well as individually wrapped wipes, even as little as 5 percent Ballistol in water will prevent rust.

- Contains no carcinogens
- Will not gum up, harden or freeze
- Neutralizes blackpowder and corrosive residue

For more than a hundred years, consumers have trusted **Ballistol** products to lubricate, penetrate, clean, protect and preserve their firearms, leather gear, wood, metal surfaces and more.  
[www.ballistol.com](http://www.ballistol.com) / (800) 253-2460

# GUN CLEANING & MAINTENANCE

## PROLIX

Penetrating Solvent/Dry Lube

Field tested by law enforcement, military and commercial shooters, PrOlix is a lab-developed penetrating solvent/dry lube gun-care product. The citrus-based biodegradable cleaner, pioneered in 1995, is the first successful “all in one” gun care product, made from 89 percent or greater renewable resources, a true commitment to sustainable practices and environmental awareness — listed as a BioPreferred product by the USDA since 2012. The solvent goes on wet, cleans and bonds, and the lube turns dry to the touch. It removes carbon, copper, lead, shotgun plastic residues and blackpowder. PrOlix will not damage wood, freeze or flash off, and it can be used for commercial and industrial applications. To complement the PrOlix Cleaner/Lubricant (Dry Tech) line, shooters can use the equally effective gun oil and grease replacer PrOlix Xtra-T Lube for a complete gun care process. PrOlix is now shipping its products with a new look, and its PrOlix TGCP in the 16-ounce-PRO with an adjustable nozzle and trigger-sprayer cap is now available in an easier-to-handle bottle.

- Goes on wet, dries to touch
- All-in-one gun care product
- Citrus-based/biodegradable

PrOlix products were ultimately introduced in 1980 at the Los Angeles Law Enforcement Expo and to retail communities in 1986. [www.prolixlubricant.com/](http://www.prolixlubricant.com/) (800) 248-5823

# GUN CARE

## All In One Step

*No product on the market works like Prolix and we've guaranteed it for 34 Years!*

### DRY LUBRICANT

- Improves accuracy
- Prevents jamming
- Won't flash off
- Will not freeze
- Non-hazardous
- Reduces fouling
- Won't harm wood, primers, old guns, or stain clothing!
- Bio preferred by USDA
- Non-petroleum

# GUN CLEANING & MAINTENANCE

## IOSSO

### Eliminator Bore Cleaning System

The IOSSO Eliminator Bore Cleaning System was developed for the most meticulous shooters, to drastically reduce cleaning time and produce a much cleaner bore. The system consists of IOSSO Bore Cleaner, a Premium Bore Brush and Triple Action Oil. The combination of these products removes the nasty carbon burn, copper, lead, plastic wad and all other fouling agents associated with shooting. Non-corrosive, non-petroleum and non-flammable, IOSSO Bore Cleaner works chemically but safely and Triple Action Oil is a penetrating oil and excellent lubricant. Both products are USDA certified bio based. This method allows for cleaning to be done in 15 minutes or less, with no smell and no running or splattering fluids. Cleaning can be accomplished

between rounds at a match or in the field while hunting. It has been reported that after cleaning with the IOSSO method, the gun will take much less time to settle in and accuracy is improved.

- **Reduces cleaning time**
- **USDA certified bio based**
- **Non-corrosive, non-petroleum and non-flammable** ♦

**IOSSO**® IOSSO has been manufacturing innovative environmentally responsible cleaning products for over 30 years in the marine, shooting sports, RV and industrial markets.

## AMERICAN TACTICAL

### Alpha-15 AR Rifle

Chambered in 5.56mm and weighing just 5.51 pounds, the American Tactical Alpha-15 AR rifle delivers both power and accuracy in a light-weight package — incorporating desired features such as a flattop, optics-ready receiver, M-Lok handguard and a slim 16-inch pencil-profile 4150 CRMOV barrel with a 1:8 twist. The Alpha-15 features a carbon fiber infused buffer tube and nano composite trigger kit, an 8-inch M-Lok rail and flip-up sights. The lower is constructed using a patented hammer and trigger-pin retaining system, which prevents these two critical components from shifting during firing. This ensures that all the fire-control elements remain in place for reliable function. And because of the polymer construction, users don't miss many of the features that are often removed from ultra-light rifles. This rifle still has a forward assist, dust cover, six-position collapsible stock and a generous

M-Lok forend for accessories and ease of handling. It was designed to minimize the use of metal parts, making it an ideal option for coastal areas, Southern regions with high humidity and maritime use.

- Flip-up sights included
- Proudly made in the USA
- Includes a 30-round ATI polymer magazine

AMERICAN TACTICAL

**American Tactical** is a firearms manufacturer and importer based out of Summerville, South Carolina — distributing a wide array of guns at competitive prices while still manufacturing them in the USA.

## EXCEL ARMS

### X-9R X-Series 9mm Rifle

The Excel Arms X-9R X-Series 9mm semi-automatic rifle features a 16-inch barrel, Glock 17 magazine compatibility and a blowback operating system in a small, compact format with tactical AR-platform styling. This unique design provides a Picatinny top and bottom rail for mounting various optics and accessories and all X-Series models are manufactured from billet aluminum and come with threaded receivers to accept mil-spec buffer tubes. Tapped holes in the handguard accommodate the mounting of accessory rails, and fixed or collapsible stocks provide a comfortable fit. The Model X-9R is California compliant and designed as an ambidextrous rifle, with a supplied bolt handle that can be positioned to the right or left depending on the shooter's preference. The Excel Arms X-Series firearms line features both pistols and rifles chambered in .22 LR, 9mm and 5.7x28mm calibers and available with 10- or 17-round magazine. Package models with optics and accessories are available.

- Value priced
- Ambidextrous design
- Picatinny rail for easy optics mounting

#### Excel Industries, Inc.

specializes in products that require precision, close tolerances and high production. It manufactures its own complete line of firearms as well as other products for the sporting industry that are sold worldwide.

## AMERICAN TACTICAL

### FXH-45 Double Stack Pistol

The FXH-45 Double Stack single-action semi-automatic pistol from American Tactical, Inc. (ATI) is a blend of classic 1911 design and modern reliability and ergonomic enhancements that optimize overall handling and shooting performance. This full-size hybrid 1911 has a polymer frame with two metal inserts for added stability and durability and weighs just 1.7 pounds empty with no magazine, making it an excellent choice for concealed-carry situations. There are 4- and 5-inch barrel models available with the option of 10-round or 14-round magazines. This new breed of pistol is compatible with most standard 1911 parts and grips, made in similar fashion to ATI's other hybrid pistols. The FXH-45 Double Stack accepts Glock-style front and rear sights, including aftermarket night sights, and a removable top

plate allows for the addition of an optics mount. Made from 4140 steel with a parkerized finish, it has an adjustable trigger and ambidextrous safety.

- **.45 ACP caliber**
- **One 10- or 14-round magazine included**
- **Polymer 1911 frame with aluminum inserts** ♦

## EUROPEAN AMERICAN ARMORY CORPORATION

EAA/Girsan MCP35 Match Pistol

Made with serious respect to the John Browning classic design, the EAA/Girsan MCP35 pays homage to one of the most widely used military handguns in the world. Built on a fully machined steel frame and slide, it features 15+1 capacity in a staggered column magazine with a short recoil 9mm action. It is equipped with a windage and elevation adjustable rear sight, fiber-optic front sight, ambidextrous safety, extended beavertail, straight single-action trigger, G10 grips and beveled magazine well. Eliminated is the magazine disconnect from the classic design while keeping an automatic firing pin block and manual safety. In the highly functional and stylish pistol, EAA/Girsan modernized a classic handgun to give users the features they would pay a custom gunsmith over \$1,000 to duplicate. Here, all the

power and performance found in better known brands is present in the EAA/Girsan MCP35 match pistol for a fraction of the cost. Available in three finishes, it has a 4.87-inch barrel and overall length of 7.75 inches, while weighing in at 1.8 pounds.

- Value priced
- Synthetic checkered grips
- Windage drift adjustable rear sight

The **EAA Corp's** mission revolves around one basic idea: to give the American consumer the best value possible in purchased firearms. And it has searched the world to provide quality firearms at affordable prices. [www.eaacorp.com](http://www.eaacorp.com) / (321) 639 4842

### OTS XLT Thermal Monocular

The slim, ergonomic ATN OTS XLT handheld thermal monocular fits perfectly in the user's hand — or in a pocket or backpack when not in use — and is available in two models: 2-8X and 2.5-10X. Both models feature a manual focus, several color modes and the ability to record video with 8GB of storage. It utilizes the company's Obsidian LT Core and a new cutting-edge sensor for sharp images at extended ranges and its battery uses a proprietary power management system that produces exceedingly long-lasting internal power that will keep users in the field longer, without the need for single-use batteries. Using the OTS XLT handheld scanner, game recovery will seem effortless and no longer frustrating, and search and rescue operations will be quicker and more efficient — its high sensitivity built-in thermal

detector providing a clear view even in total darkness. The unit's sleek design reduces the need to carry heavy equipment in the field when searching for thermal targets.

- Long-lasting battery
- Multiple color modes
- Compact, ergonomic design

**THE FUTURE  
OF OPTICS**

Founded in 1995, **ATN** is the market-leading manufacturer and developer of 4K resolution digital smart optics for day and night operations. Its optics are the perfect choice for hunters, outdoor enthusiasts and military and law enforcement personnel.

## AMERICAN TECHNOLOGIES NETWORK

### ThOR 4 Thermal Riflescope

Built with hardened aluminum alloy and impact resistant electronics designed to withstand the recoil from high-caliber firearms, the new ThOR 4 series of thermal riflescopes provides superior value with its new generation Thermal Sensor and Dual Core Processor — an advanced technological breakthrough that has improved upon the superior image quality users have come to expect from ATN. Ergonomically designed, it is packed with upgrades and a full suite of rich features. The new platform offers an ultra-sensitive next generation sensor with enhanced image processing capabilities, and its new Dual Core processor now allows for simultaneous onboard video recording and WiFi streaming. The ThOR 4 series has Recoil Activated Video capabilities, and its innovative core architecture also allows for up to 16 hours of continuous power with a

new integrated internal battery to keep users in the field longer. And sighting-in has never been easier, with One-Shot Zero — simply take a shot and adjust the reticle, and the ThOR 4 is ready for action!

- Smooth zoom
- Ballistic calculator
- Dual-stream recoil-activated video

**THE FUTURE

## AMERICAN TECHNOLOGIES NETWORK

### ThOR LT Thermal Riflescope

Available in 3-6X and 4-8X configurations, the ThOR LT from American Technologies Network is a great choice for hunters who want the advantage of using a powerful yet compact thermal riflescope at an affordable price. Designed for close-range target acquisition, the ThOR LT is perfect for hunting wild hogs and predators with a crossbow or rifle. Built to withstand the pressures of high-caliber rifles but light enough to maneuver easily with a crossbow, the ThOR LT is made from hardened aluminum alloy and available in multiple power configurations. Compatible with standard 30mm rings, its streamlined design looks more like a traditional glass optic, providing the ultimate freedom in flexibility with ring height and brand selection. Its internal battery provides 10-plus hours of continuous power to stretch every single minute out of a hunt, and

its One-Shot Zero feature will put users on target quickly. Select models are available in Mossy Oak premium patterns: Break-up Country, Bottomland and Elements Terra.

- One-Shot Zero feature
- Lightweight and compact
- 10 hours of continuous battery life

**THE FUTURE  
OF OPTICS**

Founded in 1995, **ATN** is the market-leading manufacturer and developer of 4K resolution digital smart optics for day and night operations. Its optics are the perfect choice for hunters, outdoor enthusiasts and military and law enforcement personnel.

# NIGHT VISION/THERMAL

## BERING OPTICS

### Super Yoter R Thermal Weapon Sight

The Super Yoter R compact thermal weapon sight from Bering Optics features advanced 12 $\mu$ m vanadium oxide (VOx) 640x480 core resolution with a 50Hz refresh rate that makes it a great choice for predator hunting at medium- and long-range distances up to 1,000 yards. This Wi-Fi capable thermal scope is available in two models, one with a native magnification of 3X and the other 2X, with a digital zoom of 2X, 3X and 4X. It features a reliable low-profile Quick-Detach LaRue Tactical lockable mount, and a wide range of controls and capabilities allow the user to adapt the scope to various conditions and personal preferences. The scope has image adjustment options, as well as image background adjustment and calibration features, and a unique adjustable stadiametric rangefinder can be set to the height of animals, increasing the overall usefulness of this feature.

Available are eight reticle patterns including three BDC reticles, along with four color options for each reticle pattern.

- **Picture-in-Picture function**
- **Digital compass and inclinometer**
- **Ability to save four profiles of zeroing calibration data** ♦

**Bering Optics** is an independent manufacturer of a full line of night vision optics, red-dot sights and accessories. Established in 2009, the Texas-based company is one of the few remaining manufacturers that creates and designs its own products.

# NIGHT VISION/THERMAL

## PULSAR

### Thermion 2 LRF XP50 Pro Thermal Riflescope

The next generation of thermal imaging sights has arrived with the development of the Pulsar Thermion 2 LRF XP50 Pro thermal riflescope. Utilizing 640x480 microbolometer sensor resolution, a 17-micron pixel pitch, 25mK NETD, 2-16X magnification, richly contrasting eight-color display palette and 1024x768 HD-AMOLED display, the Thermion 2 LRF XP50 Pro delivers ultra-crisp imaging with an adult-size heat-signature detection range up to 2,000 yards. It also features an integral laser rangefinder with up to a day or night range of 875 yards and accuracy to +/- 1 yard. Built to handle tough environments, the Thermion 2 LRF XP50 Pro is IPX7 waterproof rated and can withstand heavy recoil impulses up to .375 H&H, 12-gauge and 9.3x64mm. The Thermion 2 LRF XP50 Pro also features onboard

Wi-Fi, up to five zeroing profiles, eight-color display palettes, 10 reticle styles in nine color options (including first focal plane), Picture-in-Picture mode, one-shot zeroing, internal and external rechargeable batteries and is compatible with Pulsar's proprietary Stream Vision 2 App.

- Eight color display palettes
- Built to handle tough environments
- 10 reticle styles in nine color options

Every **Pulsar** device is designed, manufactured and tested

to ensure demanding professionals receive the most reliable, most advanced thermal and digital night vision performance the industry has to offer.

# RIFLE BARRELS

## GREEN MOUNTAIN

Rifle Barrels

Since 1976, Green Mountain Rifle Barrel Company (GMRB) has offered top-quality rifle barrels and excellent pricing to dealers and individual customers alike. Its barrels are available fully machined, finished and ready to assemble or as rifled “blanks” for custom projects. From raw bars GMRB cuts, deep-hole drills, finish reams to a precise, uniform size and button rifles its barrels and then CNC lathes them to create a variety of contour styles for the popular AR, AK, Uzi, Ruger 10/22 platforms and more — only after thermo-stress relieving ensures consistent bore dimensions. Whether customers choose a rifled blank or finished product, GMRB-quality of every barrel is assured at each production process. Rifled bore dimensions are measured with air-gage accuracy. Finished features, created in computer controlled milling centers, are examined by skilled inspectors with a range of instruments

from the conventional (.0001 inch) micrometer to up-to-date (and versatile) electronic equipment. Ready-to-assemble barrels are available with professional phosphate, nitrocarburized or blued coatings, with or without a chrome-lined bore.

- Rust preventative coating
- Individually wrapped to ensure safe delivery
- GMRB quality assured 

Branch Meanley founded **Green Mountain Rifle Barrel Company** in 1976 with machinery he custom made

or modified to turn his vision of making the perfect barrel into reality. Today, Green Mountain crafts every barrel with that same passion, pride and attention to detail.

Since 1976 Green Mountain Rifle Barrel Company has provided hunters, competitive shooters, craftsmen and shooting enthusiasts alike the same great quality rifle barrels, made with pride and attention to detail. With a reputation for accuracy built on a history of setting records in national shooting competitions, GMRB makes no short cuts or compromises, only the dedication to give a product that will out-perform the customer's highest expectations.

Visit our website at [www.gmriflebarrel.com](http://www.gmriflebarrel.com) or even our brick-and-mortar retail store at 153 West Main Street, Conway, New Hampshire to see all the AR15, AK, 10-22, UZI barrels, raw and turned barrel blanks, specialty barrels, and more.

# RIFLE STOCKS

## WOOX

### Furiosa Rifle Stock

WOOX, producer of exceptional accessories for the outdoorsman, continues to turn heads with its fine line of chassis and modular wood rifle stocks. Its stocks incorporate modern touches such as M-Lok and ARCA rails and QD attachment points. Couple this with sensational design and the result is products made specifically for shooters longing for the classic feel of wood while maintaining the capability presumed possible only through the use of polymer. The flagship stock of the Hickory, North Carolina-based company is the Furiosa, expanded in 2022 to include the company's new Suspense adjustable weight system for fine-tuning balance plus a full-length ARCA rail. Designed for PRS shooters, the Furiosa Ultra requires no bedding and is compatible with Remington, Ruger, Savage, Tikka, Sauer, Bergara, Defiance, Kelbly, Bat Machine, Bighorn Arms and other rifles. Explore the full lineup of stocks, chassis, shotgun grips and exceptional axes and knives by visiting WOOX's website. Dealers can look forward to no minimums and a dedicated wholesale website for easy ordering.

- Fully adjustable anodized skeleton
- Single-piece forged monoblock body
- Walnut, midnight gray and micarta black finishes

## WOOX

Based in Hickory,  
North Carolina,  
WOOX's mission is

to create high-end products for outdoor enthusiasts — the wild child of Minelli Group, an Italian company started in 1937 by Francesco Minelli and his three sons in northern Italy.

[www.wooxstore.com](http://www.wooxstore.com) / (828) 310-1011

# NOT MADE IN CHINA.

The Furiosa is proudly made in Italy and America. Unrivaled in form and function, it is one of the best-crafted precision shooting chassis in the entire world. A masterwork in metal and wood, the Furiosa is engineered in purposefulness – not China.

See more at [WOOXstore.com](http://WOOXstore.com).

FOR THE GREAT OUTDOORSMAN.

## MARK 7 RELOADING

### Power Trim Xpress Case Trimmer

Mark 7 Reloading has added the Power Trim Xpress electric press mounted case trimmer to its extensive line of reloading products. Now, users can trim cases with lightning speed on any progressive, automated or single station press. The Power Trim Xpress case trimmer will tackle the toughest commercial trimming jobs yet is priced to fit any reloader's budget. It features a powerful industrial grade variable speed DC motor. High torque output, combined with the slim design that takes up only one die station, makes the Power Trim Xpress the most useful trimmer in its class. It will speed through standard trim jobs as well as easily handle cartridge conversions such as .223 Rem. to .300 Blackout. The trimmer will accept standard trim dies and is equipped with a

vacuum manifold to cleanly evacuate chips. In addition, the trimmer comes with a long-lasting carbide cutter that is standard size and user replaceable.

- Uses standard trim dies
- Replaceable carbide cutter
- Slim motor design takes up minimal room

Every **Mark 7** product is proudly manufactured in the USA — its team committed to engineering the best reloading equipment on the planet and constantly improving to make it even better.

## ARACHNIGRIP

### Semi-Auto Slide Grip

The Slide Spider, by ArachniGRIP, is a patented one piece adhesive grip wrap for semi-auto pistol slides, designed to enhance safety and control in the operation of handguns. It enables the shooter to gain increased control through a safe and secure hold. The Slide Spider features additional tactical advantages under challenging operating conditions, including extreme moisture and temperatures. In addition, the product aids shooters with weak or weakened hand strength and those with medical conditions such as arthritis. The grip is easy to install and extremely durable. ArachniGRIP offers a variety of designs to fit most semi-automatic handguns. The Slide Spider measures approximately 1 inch by 3 inches, and

custom imprinting is also available. They are 100 percent made in the USA. New dealers wanted.

- Defeats heavy slide springs
- Easy to install and extremely durable
- Effective in extreme weather conditions

Founded by two lifelong firearms enthusiasts, **ArachniGRIP** is located in Parker, Colorado, producing products and instructional videos designed to aid shooters in the safe, practical use and control of their firearms.

## KICK'S INDUSTRIES

### High Flyer Waterfowl Chokes

High Flyer Waterfowl chokes from Kick's Industries are a great choice when targeting everything from high-flying geese to decoying ducks. They are precision machined to high tolerance standards on computer-controlled equipment using 17-4 PH grade stainless steel and feature a unique conical/parallel internal design and exclusive outward angled diagonal ports, designed to improve pattern density by up to 20 percent. The extended ported section also makes follow-up shots faster and more accurate by reducing recoil and muzzle jump. High Flyer Waterfowl chokes are performance patterned for use with steel and other non-toxic loads and constriction recommendations are based on distance to determine which sizes work best for specific situations. They are available in 10-, 12- and 20-gauge models in black and camo. To determine which choke size best fits a shooting situation, customers

can use the Kick's Choke Selector Tool on its website. Waterfowl hunters who are looking for the best patterns possible will be pleased with the superior results delivered by Kick's High Flyer choke tubes.

- **Reduced recoil and muzzle jump**
- **Use with steel and other non-toxic loads**
- **Exclusive outward angled diagonal ports** ♦

**Kick's Industries** manufactures a complete line of aftermarket shotgun choke tubes designed for every type of hunting and competition shooting. They can be purchased directly from the factory or through its international dealer network.

[www.kicks-ind.com](http://www.kicks-ind.com) / (800) 587-2779

**VORTEX**

**HIGH FLYER**

Also Available  
in **CAMO**

## WHY KICK'S IS BETTER

The production of superior quality products begins with the use of superior quality materials. All KICK'S chokes are manufactured from solid, heat-treated, 17-4PH grade round bar stock. The use of solid bar stock eliminates problems with weak seams and other issues encountered with the use of tubing or other lower quality materials.

## MEPROLIGHT

### RDS Pro V2 Red-Dot Optic

The latest and most technical mil-spec red-dot optic from Meprolight, the Mepro RDS Pro V2, utilizes battle-proven LED technology, and its rugged design assures reliability under the harshest environmental conditions. It features 16 levels of brightness — 12 for day and four for night vision — with GEN II and GEN III NVGs allowing users to adjust to changing light conditions. Its auto off/on function preserves battery life when not in use, automatically turning back on when moved. The sight's large display window and clearly defined reticle ensures rapid target acquisition with both eyes open, and it is available with 2.0 MOA dot, 2.2 MOA Bull's-eye and 300 Blackout reticle options in red or green. The sight provides thousands of hours of use from a single AA battery, depending on the level of reticle brightness selected. It is battle proven and trusted by militaries,

law enforcement agencies and professional shooters worldwide. The Mepro RDS Pro V2 utilizes a Picatinny rail mounting system and is compatible with NVGs and magnifying scopes to extend operational range.

- Auto shut-off
- Durable and lightweight
- 16 brightness levels/large display window

**Meprolight**, a division of SK Group, is the premier manufacturer and global supplier of top-grade electro-optical and optical sights, self-illuminated sights for pistols, shotguns and rifles, night vision and thermal sights and devices.

## AMERICAN TACTICAL

### Scout Semi-Auto Polymer Shotgun

American Tactical's Scout line of imported shotguns is designed to fill the needs of a wide variety of hunters and shooting sports enthusiasts. The Scout semi-auto polymer model is a good example, offering fine performance in a reliable and durable shotgun design at a value price. It comes chambered in 12-gauge with a 3-inch chamber (accepts 2.75- and 3-inch shotshells) and a 26-inch vent-rib barrel and is also available in 20-gauge and .410-bore. Scout features include a synthetic forend and stock, fiber-optic front sight and a 4+1 round capacity. Beretta/Benelli-style choke tube threads are included. This is a tough and rugged gun that is ready to go to work, regardless of whether the user is hunting waterfowl, upland birds, small game, or just breaking fast-moving clays at the local gun club. The Scout polymer shotgun comes with a sleek black finish and weighs in at 6.95 pounds unloaded.

- **Fiber-optic front sight**
- **Beretta/Benelli-style choke tube threads**
- **Available in 12- and 20-gauge and .410-bore** ♦
